Forecast for Sunday 25 Feb 2024

Weather: Dry overnight with patchy mist or fog which will slowly lift and clear during the morning. Otherwise, a dry start with bright intervals but cloud thickening with outbreaks of rain or sleet in the afternoon, falling as snow above 800m. This may become persistent and heavy for a few hours before becoming dry during the evening.

Chance of cloud-free hill tops above 600m: 60% becoming 20% during the morning.

Low cloud and visibility: Areas of low cloud and fog in the valleys overnight will slowly lift up the slopes during the morning. Further low cloud developing above 600m in the afternoon with fog and sleet or snow making navigation difficult on the tops.
